Gentlemen:

Please find enclosed your NRC material license.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the Region I Material Licensing Section, (215) 337-5239, so that we can provide appropriate corrections and answers.

Please be advised that you must conduct your program involving licensed radioactive materials in accordance with the conditions of your NRC license, representations made in your license application, and NRC regulations. In particular, please note the items in the enclosed, "Requirements for Materials Licensees."

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, the NRC expects licensees to pay meticulous attention to detail and to achieve the high standard of compliance which the NRC expects of its licensees.

You will be periodically inspected by NRC. A fee may be charged for inspections in accordance with 10 CFR Part 170. Failure to conduct your program safely and in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in prompt and vigorous enforcement action against you. This could include issuance of a notice of violation, or in case of serious violations, an imposition of a civil penalty or an order suspending, modifying or revoking your license as specified in the General Policy and Procedures for NRC Enforcement Actions, 10 CFR Part 2, Appendix C.

SUMMARY

I contacted Bob's secretary & she'll tell Bob to call me this afternoon.

Call back @

Bob, I discovered upon reviewing again your correspondence to us that the only individual we can name as a user and RSO is Bruce Williams due to the commitment that Bruce is receiving Ohmart training today & tomorrow. Note that Jack Washnock & yourself can operate these gauges provided you are supervised by Mr. Williams - this does not have to be under his physical presence. Therefore if you still want a fast return on your NRC license, you'll have to go by this plan for now. Is that OK with you?  
Answer: That's fine, go ahead & do it please.
