Annual Land Use Survey

Dear Mr. Smith:

Pursuant to License Condition #21 Rio Algom Mining Corp. conducted an annual survey of land use in the area within five miles of its restricted area boundary. All changes observed since our last submittal of September 28, 1984 are in Township 29 South, Range 24 East and are reflected on the enclosed up-dated copies of our "Land Use Survey Map". For your convenience, those changes are summarized below.

- Section 4 - one mobile home removed.
- Section 9 - three mobile homes removed, two mobile homes installed. Also, new roads were constructed and a small pond added.
- Section 10 - a new road was constructed and a small pond was added.
- Section 21 - the Company restricted area fence was extended to encompass the new tailings line from the lower tailings impoundment.

Apart from Rio Algom ending its mining operation at the Mi Vida Mine in January 1985, there were no other changes found on our survey.

If you have any questions concerning this survey, we would be pleased to discuss them with you.
