RE: Application for By-Product
Material License, Industrial

Gentlemen:

Enclosed is our application, Form NRC-3131 and our check for \$110.00.

We are a construction company and this is the first time we have ever owned a nuclear gauge of any type. The purpose of the gauge is to check the moisture density for roadway compaction as required by various departments of transportation.

If you have any questions, please contact the undersigned.

Very truly yours,

VECELLIO & GROGAN, INC.

Ralph Beckett, Engineer
