Nuclear Production Department
422 South Church Street
Charlotte, NC 28242

Gentlemen:

SUBJECT: REPORT NOS. 50-269/85-25, 50-270/85-25 AND 50-287/85-25

On April 22 - 26, 1985, NRC inspected activities authorized by NRC Operating License Nos. DPR-38, DPR-47, and DPR-55 for your Oconee facility. On July 3, 1985, an Enforcement Conference was held at the NRC Region II office in Atlanta, Georgia. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report. Areas addressed at the Enforcement Conference are identified in the enclosed inspection report.

The inspection findings indicate that certain activities violated NRC requirements. The violation, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

In addition to the need for corrective action regarding the specific violation, we are concerned, as we stated during the July 3, 1985 Enforcement Conference, about the implementation of your management control systems that permitted the occurrence. Specifically, in your reply, you should describe those actions taken or planned to assure that conditions contrary to specific requirements in NRC orders are promptly identified, appropriately resolved, and reported if required.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

(Original signed by VLBrownlee/ for)

Roger D. Walker, Director
Division of Reactor Projects

Enclosures:

1. Notice of Violation
2. Inspection Report Nos. 50-269/85-25,
50-270/85-25, and 50-287/85-25
