

August 17, 1983

SECY-83-72B

For: The Commissioners

From: William J. Dircks
Executive Director for Operations

Subject: RESULTS OF OPERATOR LICENSING EXAMINATIONS FOR SECOND
QUARTER FY 1983

Purpose: To inform the Commissioners of examination and licensing
activities for Reactor Operators and Senior Reactor
Operators for January 1, 1983 through March 31, 1983.

Discussion: The enclosed table reports licensing action results, including
issuances, denials or withdrawals and pass/fail rate for each
NRC licensing examination component.

The total number of licensing actions processed in the second
quarter FY 1983 was approximately the same as for the first
quarter FY 1983, (SECY 83-72A). The pass/fail rate remained
consistent during the period. Most of the failures continue
to occur on the written portion of the examination.

As a result of the regionalization effort, we expect the
examination processing time to be reduced and the data
input into the Operator Licensing Tracking System to be
maintained on a current basis. Therefore, we plan to
include in the next report the results by region from the
third and fourth quarters of FY 1983. The report will also
include results of the requalification examinations, which
commenced in May 1983. Subsequent reports will include
results from the preceding quarter.

William J. Dircks
