Gentlemen:

SUBJECT: REPORT NOS. 50-338/85-22 AND 50-339/85-22

On August 5 - September 1, 1985, NRC inspected activities authorized by NRC License Nos. NPF-4 and NPF-7 for your North Anna facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation.

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Original Signed by  
Roger D. Walker  
Roger D. Walker, Director  
Division of Reactor Projects
