Gentlemen:

Enclosed are the Quarterly Self-Monitoring Reports for the Perry Nuclear Power Plant sanitary waste system for the months of September, October and November. All required samples were collected in accordance with the self-monitoring program. The BOD analyzation for November was interrupted due to power problems during the November snowstorm. Per a telephone conversation between yourself and Electro Analytical, resampling for BOD wasn't necessary. No violations occurred during this quarter.

Also included are the results from an isotopic analysis. No radioactive material was detected.

If you have questions or require additional information, please contact Donna Tizzano at (216) 280-5514.

Very truly yours,

9612180015 961206
