Gentlemen:

Pursuant to Title 10, Code of Federal Regulations, Part 40, and your amendment request dated September 4, 1985, Source Material License No. SUA-1338 is hereby amended to modify License Conditions No. 4 and No. 35 as follows:

4. Expiration Date: September 30, 1986.
35. With the exception of the removal of sludge from the evaporation pond, implementation of the decommissioning plan is prohibited until the Nuclear Regulatory Commission, Uranium Recovery Field Office, has approved restoration of Pattern 1 at the Reno Creek ISL Facility. The removal of the sludge from the evaporation pond and its transfer to a licensed disposal facility shall be as described in the licensee's letter of September 4, 1985, and in accordance with the approved decommissioning plan in License Condition No. 34.

All other conditions of this license shall remain the same.

The effect of this amendment is to extend Source Material License SUA-1338 for a period of 1 year to allow the NRC to complete the review of restoration of Pattern 1 and RMEC to complete site decommissioning. In addition, the license amendment approves the removal of sludge from the evaporation pond prior to implementation of the decommissioning plan.

This amendment has been discussed by Mr. M. Neuman of your staff and S. Wastler of the URFO staff. Source Material License SUA-1338 has been
