

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

June 28, 1984

Docket No. 50-382

MEMORANDUM FOR: James L. Blaha, Director  
Program Support & Analysis  
Office of Inspection and Enforcement

FROM: Dennis M. Crutchfield  
Division of Licensing  
Office of Nuclear Reactor Regulation

SUBJECT: WATERFORD UNIT 3

By memorandum dated May 11, 1984, I requested the services of Mr. Charles Haughney of Comex Corporation to aid in the Waterford effort. Mr. Haughney has been addressing General Inspection Procedures Manual Chapter 2514 concerning the readiness of the applicant's QA Operational Program.

The following modifications should be made to Mr. Haughney's contract:

CONTRACT NO. NRC-05-82-249  
Parameter, Inc.  
Task Order No. 66, Modification #2

REVISE:

Work Requirements

In addition to providing his own written input to the inspection report Charles Haughney will correlate the inputs from the other team members inspecting modules 35740-35750, General Inspection Procedures Manual Chapter 2514.

Estimated Level of Effort

Because of the additional work requirements it is estimated that an additional 30 hours of office time are required by Mr. Haughney to complete the effort.

Estimated Period of Performance

June 15, 1984 through July 6, 1984.

Mr. Mark Good of Comex Corporation, also on contract No. NRC-05-82-249, did not use all of the office hours allotted him in Modification #1. The additional time Mr. Haughney needs to complete his work, therefore, does not require the cost ceiling to be raised.
