Docket No. 50-155

Mr. David J. VandeWalle  
Director, Nuclear Licensing

Dear Mr. VandeWalle:

SUBJECT: IN-PROGRESS AUDIT FOR THE DETAILED CONTROL ROOM DESIGN REVIEW  
(DCRDR) SCHEDULE

Re: Big Rock Point Plant

During our site visit, we were informed of a potential conflict with regards to the current schedule for the planned DCRDR Audit, currently scheduled September 16-19, 1985, and certain activities to be conducted during the upcoming Big Rock Point refueling outage. Subsequent telecons between Mr. R. Frisch and Mr. T. S. Rotella, project manager, Big Rock Point concerning the rescheduling of this audit, have produced a new audit schedule. It is our understanding that a target week beginning December 2, 1985 is acceptable to both Big Rock Point Plant management and the NRC Audit staff. The "audit plan" for the DCRDR, previously transmitted by letter to you on June 19, 1985, remains unchanged.

If you should have any questions regarding this schedule change, or the general contents of the audit, please contact Mr. T. S. Rotella or me.

Sincerely,
