File No. G9.5, G1.17

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

River Bend Station - Unit 1
Docket No. 50-458

During a recent review of the River Bend Station Physical Security Plan, several editorial clarifications were required concerning the use of the Nuclear Security Officer (Guard) instead of the intended generic term, Security Officer (Guard or Watchperson). The use of a Security Officer in lieu of a Nuclear Security Officer is in accordance with 10CFR73. Therefore, this change in no way decreases the response force capability.

The following Physical Security Plan pages are affected:

Page 2-6, Section 2.5.7, last sentence

Page 2-9, Section 2.5.8.5, first paragraph-first sentence,
second paragraph-second sentence

Page 6-11 and 6-12, Section 6.6.2.2, third paragraph-first
sentence, third paragraph-second sentence, third
paragraph-last sentence.

Page 6-12, Section 6.7.1, second paragraph-third sentence,
second paragraph-fourth sentence

These errors will be corrected in a future revision to the
Physical Security Plan.

Sincerely,

J. E. Booker
