

22 JUL 1985

Docket Nos. 50-206, 50-361
and 50-362

Southern California Edison Company
P. O. Box 800
2244 Walnut Grove Avenue
Rosemead, California 91770

Attention: Mr. Kenneth P. Baskin, Vice President
Nuclear Engineering, Safety and Licensing Department

Gentlemen:

This letter concerns unescorted access of NRC contractor employees to your facilities for the purpose of observing your emergency planning exercise. This matter has been discussed during telephone conversations between Ms. G. M. Temple of my staff and Mr. P. J. Dooley of your staff. Access to the site will be required for the week beginning August 5, 1985.

Two NRC team members have been listed in the enclosure to this letter. Ms. G. M. Temple, the NRC Team Leader, and Mr. K. M. Prendergast have not been listed because they have already been issued badges for unescorted access. I am requesting that the individuals identified in the enclosure to this letter be issued no escort required picture badges as authorized by 10 CFR 73.55(d)(5) for prompt access to all areas of your facility. The Department of Energy (DOE) "Q" and "L" clearances equal or exceed your screening requirements.

The personnel identified in the enclosure to this letter have completed indoctrination training in radiological protection, emergency response and security comparable to that furnished by you to regular site employees granted unescorted access. Any additional training provided by you to these team members should be limited to site specific matters required for the individuals' safety. Arrangements for this site specific training have been coordinated with Mr. P. J. Dooley of your staff.

ENCLOSURE

This certifies that the persons listed below are contractors of the U. S. Nuclear Regulatory Commission. To the extent of our knowledge, these persons do not possess adverse character traits or indications of aberrant behavior. These persons have been screened to the national level (to include a criminal records check) and no disqualifying offenses were noted. Their trustworthiness has been determined by a review of the individuals' employment records. Based on the above, I recommend that these individuals be granted unescorted access to all areas of your facility.
