APPLICANT'S NINTH PARTIAL RESPONSE TO
ROREM'S FIRST SET OF QUALITY ASSURANCE
INTERROGATORIES AND REQUESTS TO PRODUCE

On July 2, 1985, Intervenors Rorem, et al. ("Intervenors"), filed their First Set of Quality Assurance Interrogatories and Request to Produce. On July 30, 1985, Commonwealth Edison Company ("Applicant") filed objections to certain of those discovery requests and provided to Intervenors' counsel a partial response to Intervenors' discovery requests. Applicant's first partial response was revised and resubmitted on August 1, 1985. Applicant filed a second partial response on August 5, 1985, a third on August 10, 1985, a fourth on August 13, 1985, a fifth on August 14, 1985, a sixth on August 28, 1985, a seventh on September 6, 1985, and an eighth on September 12, 1984. This submission, which is Applicant's ninth partial response to Intervenors' discovery requests, provides corrections to and supplements the previous responses. In addition, affidavits supporting certain responses are included. Investigation continues for responses to all of the requests to which Applicant has not objected and Applicant will supplement responses as appropriate. In addition, Applicant will provide at a later date updated indices of documents made available for inspection and copying.

CORRECTIONS AND SUPPLEMENTAL INFORMATION

- 1) In the last paragraph of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 6.B.4, the last sentence should be stricken.
- 2) In the seventh paragraph of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 8.B, the first sentence should read "Switchboard wire is the only safety related control wire/cable purchased for use at the Braidwood site which is not purchased pursuant to an S&L Specification but rather on a purchase order basis." The last sentence of the seventh paragraph should be stricken.
- 3) The second paragraph of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 8.C quotes Section VI B.1.b (2) of CAT Inspection Report Number 50-456/84-44; 50-457/84-40, February 20, 1985. The third sentence of this quote should read "Also, the generic qualification document issued by Gould Inc. for Braidwood Class 1E storage batteries specified ASTM A307 bolts for the battery racks."
- 4) The following corrections should be made to page three of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 10.D:

- The first paragraph should read "A review by the NRC CAT inspectors of the Quality Control inspection procedures indicated that the 12" vertical and 3" horizontal cable tray separation requirements between safety-related and non-safety-related cable trays were not included."
 - The first sentence of the second paragraph should read:
"Maintenance of required separation distances is included as part of design and is reflected on the installation drawings."
 - The fourth sentence of the second paragraph should read "The program requires a walkdown of all installed safety-related cable trays in order to identify any cable tray that is installed with less than the basic separation distance (12" vertical and 3" horizontal) required between safety-related and non-safety-related raceway."
 - The first sentence of the third paragraph should read
"Installations identified during the walkdown are then reviewed to determine if proper documentation exists to justify the installed separation."
- 5) In the fifth paragraph of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 9.E, the last sentence should read "Related work now done by G.K. Newberg is governed by their procedure QCP-55 which requires documented fit-up inspection by quality control."

- 6) In the Supplemental Response to Specific Interrogatory 61 included in Applicant's Seventh Partial Response, the parentheticals in paragraphs 2 through 7 are intended to be headings for the paragraphs which follow each one.
- 7) In the fourth paragraph of Applicant's response to Specific Interrogatories 58 and 59, Contention Item 6.A, the first sentence should read "Revision 1 was written to proceduralize the reinspection activities which had been accomplished during the Revision 0 review of all the safety-related equipment."
- 8) The following corrections should be made to Applicant's response to Specific Interrogatories 58 and 59, Contention Item 6.D:
- The second sentence in the third paragraph should read "During the 1982 equipment reinspection program (see response to Contention 6.A), the QC inspectors verified the existence of the grout but were unable to identify the presence of the shims since they were encased in grout."
 - The third sentence of the fourth paragraph should read "Nonconformance Report No. 3961 was initiated to document these similar deficiencies."
 - The first sentence of the fifth paragraph should be stricken.

- The first sentence of the sixth paragraph should read "Sargent & Lundy has issued ECN 27436 which determines that shims may be left in place without affecting the performance of all safety-related mechanical equipment except for the four containment spray pumps and four residual heat removal pumps described above."

- 9) In a Supplemental Response to Specific Interrogatory 19 included in Applicant's Seventh Partial Response, three attachments were described. Attachment 1 to the Supplemental Response is provided herein. Attachment 2 should be corrected to reflect the fact that Dave Grant had been transferred from the Braidwood site prior to being laid off on July 29, 1985. Attachment 3 has been revised to correct some errors in the initial attachment and is provided herein. Attachment 4 is a list of G.K. Newberg Quality Assurance and Quality Control personnel employed at Braidwood and also is provided herein.
- 10) In the Response to Specific Interrogatory 40 included in Applicant's Seventh Partial Response, a heading should be included between the first and second paragraphs of the seventh page which reads "Ductwork Sealant Materials."
- 11) As indicated, the following page numbers should be inserted in the lists of references accompanying the responses to contention items included in Applicant's Sixth Partial Response to Rorem's First Set of Quality Assurance Interrogatories.

<u>Contention Item</u>	<u>Reference Number</u>	<u>Page Numbers</u>
10.D.	3	L0001638-1643
12.B.3.	6	M0001104-1117
12.B.3	8	M0001118-1127

- 12) The Response to Specific Interrogatory 10 included in Applicant's Seventh Partial Response indicated that a list of 50.55(e) reports for Zion, LaSalle, Byron, and Braidwood would be provided. That list is provided with this submittal.
- 13) Applicant's Eighth Partial Response provided a response to Specific Interrogatory 35. The index of documents associated with the response to Specific Interrogatory 35 is provided with this submittal.
- 14) The Supplemental Response to Specific Interrogatories 20-22 included in Applicant's Seventh Partial Response should be corrected in the sixth paragraph to reflect that the title of PGCo Procedure QAP/BR-12.3 is "Control of Discrepancy Reports" not "Document Deficiency Report Procedure."
- 15) Affidavits signed by the following individuals are being provided with this response:
- Steven C. Hunsader (September 10, 1985)
 - Eugene E. Fitzpatrick (2 affidavits dated September 10, 1985)
 - William B. Paschal (September 17, 1985)
 - Bruce L. Tanouye (September 10, 1985)
 - Daniel L. Shamblin (3 affidavits dated September 9, 1985 and September 10, 1985 and September 24, 1985)

- Ray Preston (September 10, 1985)
