

## Washington Public Power Supply System

P.O. Box 968 3000 George Washington Way Richland, Washington 99352 (509) 372-5000

DOCKET NO. 50-508

September 5, 1985  
G03-85-514

Mr. J. B. Martin  
Regional Administrator  
U.S. NRC - Region V  
1450 Maria Lane, Suite 210  
Walnut Creek, CA 94596

Dear Mr. Martin:

Subject: SUPPLY SYSTEM NUCLEAR PROJECT NO. 3  
READINESS REVIEW PROGRAM

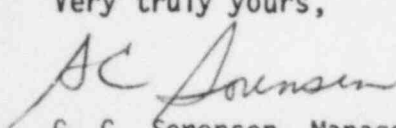

Reference: Letter, G03-85-461, dated August 16, 1985

In our answer to Question 6 of Attachment 2 in the referenced letter, we committed to provide short-term schedules of design review activities so that NRC may participate in these activities, at their initiative. The attached schedule is for the first review module, number E3-01 (E for Engineering; 3 for WNP-3; and 01 for the first module). Because these activities are near-term, this schedule is not in the final format being developed for future use.

We plan to communicate last-minute details of the schedule, such as exact time, place, etc. by telephone, not burdening the correspondence file with such detail. The telephone contacts will be made to Region V and Mr. Milhoan of the Office of Inspection and Enforcement.

If you have any questions, please contact George A. Block at (509) 372-5181.

Very truly yours,

  
G. C. Sorensen, Manager  
Regulatory Programs

Attachment: As stated.

cc: See attached page.
