MEMORANDUM FOR: Docket File No. 40-3453

FROM: Noah M. Shopenn, Project Manager  
 Licensing Branch 2  
 Uranium Recovery Field Office, RIV

SUBJECT: AMENDMENT NO. 24 TO SOURCE MATERIAL LICENSE  
 SUA-917 FOR ATLAS MINERALS MOAB MILL

By letter dated July 5, 1985, Atlas Minerals submitted a proposal to change the mailing address for correspondence regarding the Moab, Utah mill. The licensee proposed to have the correspondence sent to their Grand Junction, Colorado office. Accordingly, the licensee indicated that the position of Regulatory Affairs Manager has been reassigned to the Grand Junction office. All other aspects of the mill organizational structure remain the same.

The staff has determined that the licensee's actions do not constitute a change in the chain of command, its personnel or their responsibilities. The change does not have any safety significance and just changes the mailing address in License Condition No. 2 of the license.

Therefore, the staff recommends the revision of License Condition No. 2 in accordance to the licensee's request.
