SUMMARY

Scope: This special inspection entailed 38 inspector-hours on site reviewing the circumstances surrounding a security event which led to the discovery of an unauthorized weapon and ammunition within the protected area. Areas inspected included: Access Control - Personnel/Vehicles; Security Organization; Physical Barriers - Protected Area; Assessment Aids; Detection Aids - Protected Area; and Communications.

Results: The following violations of regulatory requirements were identified:

- A. Failure to control vehicle access into the Protected Area during a security drill.
- B. Failure to control personnel access into the Protected Area during a security drill.
- C. Failure to maintain in effect provisions of the approved Physical Security and Training and Qualification Plans concerning the conduct of security drills.
