In the Matter of  
KERR-MCGEE CHEMICAL CORPORATION  
(Kress Creek Decontamination)  
Docket No. 40-2061; ASLBP No. 84-502-01-SC

and

(West Chicago Rare Earths Facility)  
Docket No. 40-2061 ML, ASLBP No. 83-495-01-ML

Dear Ms. Rapkin and Mr. Meserve:

This letter is to document discussions I have had with each of you regarding transmittal to the NRC staff of discovery documents and certain other documents which the Staff requests from the People of the State of Illinois and Kerr-McGee.

The Staff has requested that the People transmit to the Staff a copy of all documents produced in response to discovery by Kerr-McGee at the time of their production. The People have agreed to this procedure.

Kerr-McGee has been transmitting to the Staff copies of documents produced in response to discovery by the People. The Staff also requested from Kerr-McGee copies of all documents it has transmitted to the People outside of discovery regarding the collection and analysis of groundwater and waste samples from the Kerr-McGee West Chicago site. Kerr-McGee has already provided to the Staff, or will promptly provide to the Staff, all such documents.

At the Staff's request, Kerr-McGee and the People have agreed to send the Staff a copy of any notice of deposition or subpoena for deposition in People v. Kerr-McGee Chemical Corporation and any other correspondence regarding the dates for depositions, so that the Staff may order transcripts. The People and Kerr-McGee will also provide the Staff with the name of the court reporter before whom the depositions are being taken.
