SUBJECT: CYTRAC Topical Report - Data Files *Enclosure! Proprietary*

Dear Mr. Roles:

Per our discussion, I have enclosed a copy of the current user's manual for the CYTRAC computer program and printouts of the data files which were inadvertently not shipped with my last letter. Again, please note that the only data file that is permanently resident in the program is the ISOTOPE.CYT file. All other data files are created by the user as he utilizes the program and only the shell exists in the program. The printouts which are enclosed are of some files which existed in a working copy of the program installed on our personal computer. Most of the data in these files is coded and may not be readily interpretable. The one file which may be of interest is SESSION.CYT, the session record for audit purposes.

If you have any questions or require additional information, please contact me at your convenience.

Very truly yours,

*R. W. Hess*
