Pursuant to the requirements of 10 CFR 50.59 (b)(2), Braidwood Station is submitting the enclosed report. This report covers the period from 6/19/94 through 6/18/96, and consists of descriptions and safety evaluation summaries for changes to the facility and procedures as described in the safety analysis report. No tests or experiments governed by paragraph (a) of 10 CFR 50.59 were performed. Also included as part of this report are changes made to features of the Fire Protection Program not previously presented to the NRC Staff.

The subject report is being submitted to coincide with the UFSAR and Fire Protection Report updates consistent with the provisions of 10 CFR 50.59 (b)(2). Updates to the UFSAR and Fire Protection Report will be submitted under separate cover. Note that the UFSAR and Fire Protection Report updates are currently submitted every 24 months in accordance with the provisions of 10 CFR 50.71(e)(4). In the referenced letter, the Staff agreed with ComEd's proposal to provide updates to the NRC no later than 24 months from the submittal date of the previous revision.
