Re: License Renewal Application

License Number 48-26117-02

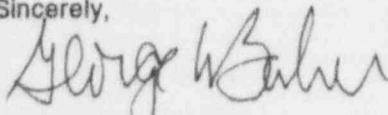

Dear License Renewal,

We are looking to terminate our license for industrial radiograph sources. This does not affect our license to possess portable nuclear density gauges.

Our license has not expired and we want to terminate it. We have never possessed the materials licensed and therefore no member of the public received a radiation dose.

I hope these commitments from the management of River Valley Testing Corp address your concerns and requirements. If not, please feel free to contact me at the above address and phone number.

Sincerely,
