

DOCKET NUMBER  
PROD. & UTIL. FAC.

50-295 OLA  
(2.206)

July 31, 1985

DOCKETED  
USNRC

The Honorable Nunzio J. Palladino,  
Chairman  
US Nuclear Regulatory Commission  
Washington, DC 20555

'85 AUG -6 P4:13

Honorable Sir:

I am enclosing a copy of the Appeal on the Director's Decision regarding my Petition.

I believe that the Director's Decision did not address some of my requests and that some essential evidence presented in my Petition has not been considered.

The Director's Decision is non-technical and is not supported by derivations, proofs, calculations and other technical evidence.

In my Appeal I requested, in accordance with 10 CFR, 2.206, that a meeting be called where the preparers of the Director's Decision would be able to present evidence on the subject matter.

In accordance with 2.206 (c), I am seeking your support. The Director's Decision is concerned with very important matters and it, certainly, would not be fair to let it become a Final Decision without any discussion.

Sincerely,

Zinovy V. Rytblatt, Chair  
Dept. of Mathematics &  
Computer Science
