Docket No. 50-333

Mr. John C. Brons  
Senior Vice President -  
Nuclear Generation  
Power Authority of the State  
of New York  
123 Main Street  
White Plains, New York 10601

Dear Mr. Brons:

SUBJECT: LONG-TERM PIPE SUPPORT INSPECTION PLAN

Re: James A. FitzPatrick Nuclear Power Plant

Thank you for your letter dated May 2, 1985 forwarding your long-term program plan for pipe support inspection and evaluation at the FitzPatrick facility. We have reviewed the plan and find that the program provides an adequate basis to resolve the discrepancies identified by the third party review performed by United Engineers and Constructors and to ensure the completeness of the design commitments for the plant. The progress of your program will, of course, be monitored by our normal inspection process.

We appreciate your keeping us informed in this matter.

Sincerely,
