Attention: Mary Ann Coffey
Director

Gentlemen:

Enclosed is the NRC license amendment which you requested.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify us so that we can provide appropriate corrections and answers.

Please note that the letters dated January 16, 1985 and February 1, 1985 are no longer referenced in License Condition 20. The letter dated February 1, 1985 has been superceded by your April 9, 1985 submittal. The documents submitted with your January 16, 1985 letter imply that the University of Nevada, Reno will be picking up barrels of waste for forwarding to a waste disposal site. However, the university's Nevada state license currently does not authorize them to provide this service.

Any future correspondence relating to your license should specifically reference your license and docket numbers to expedite your inquiry.

Sincerely,

Beth A. Riedlinger
Health Physicist (Licensing)
Nuclear Materials Safety Section
