WASHINGTON, D. C. 20555

MEMORANDUM FOR: C. J. Heltemes, Jr., Director
Office for Analysis and Evaluation
of Operational Data

FROM: Harold R. Denton, Director
Office of Nuclear Reactor Regulation

SUBJECT: COMMENTS ON SUPPLEMENTAL GUIDANCE ON THE PREPARATION
OF LICENSEE EVENT REPORTS

As you requested in your memorandum of June 27, 1985, we have reviewed your draft report regarding the first year evaluation of Licensee Event Reporting (LER) under the new LER rule. The evaluation is comprehensive and we agree with your plans to publish this report as a supplement to NUREG-1022.

We believe the guidance offered in the conclusions and recommendations section is valuable and will improve the quality of LERs from those licensees who incorporate it into their programs. You might consider whether the guidance needs to be considered under proposed backfit regulations and the Manual Chapter.
