

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

December 13, 1996

MEMORANDUM TO: James L. Blaha  
Assistant for Operations  
Office of the Executive Director  
for Operations

FROM: Thomas T. Martin, Director *DBM*  
for Division of Reactor Program Management  
Office of Nuclear Reactor Regulation

SUBJECT: LICENSE RENEWAL REGULATORY GUIDE WORKSHOP SUMMARY AND PUBLIC  
COMMENTS

My staff convened a public workshop on October 29, 1996, to provide information on the staff's proposed draft regulatory guide (DG-1047) and an industry implementation guideline (NEI 95-10) for the format and content of a license renewal application. In addition, the public comment period on the Regulatory Guide closed on November 29, 1996. In the past, the Commission and senior NRC management have expressed interest in significant license renewal activities like these. For example, the Chairman asked about the summary when we briefed her on November 25, 1996.

Attachment 1 is a copy of the workshop summary. Attachment 2 is the list of the attendees. Attachments 3, 4, 5, 6, and 7 are the comments received to date from Georgia Power Company, Duke Power Company, the Nuclear Energy Institute, BWR Owner's Group, and Westinghouse Owner's Group. The transcript of the workshop proceedings is available in the Public Document Room. We can provide additional copies of the above documents if any of the Commissioners or their staff express interest in receiving them.

Thomas T. Martin, Director  
Division of Reactor Program Management  
Office of Nuclear Reactor Regulation
