

"OFFICIAL RECORD COPY"

APR 11 1985

Hayes, Seay, Mattern and Mattern
ATTN: William B. Hoover, Radiation
Protection Officer
1315 Franklin Road Southwest
Roanoke, VA 24016

Gentlemen:

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION CONCERNING A MATERIAL LICENSE
APPLICATION, (REFERENCE: 50514, 030-08676)

This refers to your letter dated March 15, 1985, requesting that Condition 12 of license number 45-15168-C₁ be amended to add two more employees. I am enclosing a copy of NRC's "Guide for the Preparation of Applications for Licenses for the Use of Sealed Sources in Portable Gauging Devices" for your reference.

From your submission it appears that you want to be licensed for "in-house" training in lieu of the employees completing the device manufacturer's training program. If this is the case, please refer to Item 8 on pages 6 and 7, with particular attention to the qualifications of the instructor.

Before amending Condition 12, we will need either the information described in Item 8 for "in-house" training or documentation showing that these individuals have completed the device manufacturer's training program.

If you should have any questions, do not hesitate to contact me at (404) 221-2675.

Sincerely,

Carol A. Connell
Radiation Specialist
Nuclear Materials Safety Section
