Mr. J. Philip Stohr, Director  
Division of Radiation Safety and Safeguards  
U.S. Nuclear Regulatory Commission, RII  
101 Marietta Street, NW - Suite 2900  
Atlanta, Georgia 30303

Dear Mr. Stohr:

Reference: (1) NRC License SNM-1097, Docket # 70-1113  
(2) NRC Inspection Report 70-1113/84-15  
dated 2/07/85, received 2/11/85  
(3) Letter, JP Stohr to EA Lees, 4/9/85

As requested in Reference 3, attached is a supplemental response to the item of apparent noncompliance with NRC requirements which was identified during the inspection conducted at our licensed fuel fabrication plant by Mr. E. L. Clay of your office on November 13-16, and December 3-7, 1984. This attachment is marked pursuant to Reference 2.

We appreciate your inspector's comments and suggestions related to public and employee health and safety. These comments and suggestions are helpful to us in our constant efforts to improve these programs, and ensure our compliance with NRC regulations and license conditions. We also welcome further discussion with your staff on the item in your letter and in our related reply, if necessary, for further clarification of this item.

Sincerely,

GENERAL ELECTRIC COMPANY
