(Return to WM, 623-SS)

Dear Matt:

Two copies of our final report on the statistical analysis of the hydrochemical data from BWIP are enclosed for your use. We have expanded Appendix C as requested. We have not changed the text where Appendix C is discussed; we do not see any obvious, pervasive relationships.

We will forward an unbound reproducible copy and a microfiche copy when the microfiche copying is completed. There are several individuals which we would like to receive copies of this report. Do you wish to handle the distribution of copies? Please advise regarding the distribution of copies. The distribution of copies will dictate the number of copies that we will make.

Sincerely,

Roy
