RE: Licence Amendment
Re: Collinsville to
Pryor, Oklahoma

Dear Mr. Whitten:

This letter is to re-confirm our recent phone conversation and acknowledge that I am requesting an amendment to my licence and request to move the portable building/isotope laboratory.

It was my impression that a letter sent previously, a copy of which is enclosed, would suffice. I would like to request help in wording to avoid this problem should Pryor become an unprofitable situation and to avoid a delay in moving to a more profitable location.

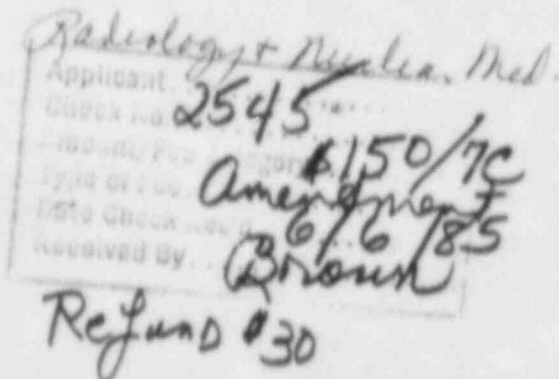

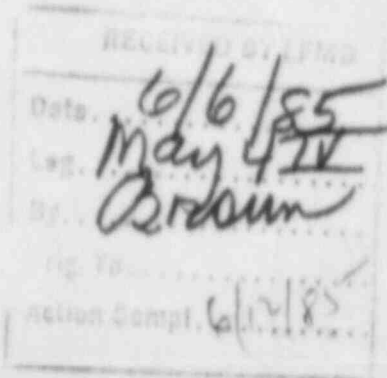

Enclosed please find a check in the amount of \$150.00 which is hopefully the right amount although the Washington, D. C. office was closed and I was unable to speak with Glenda Jackson.

Yours truly,

John T. Forsythe
