Re: License Number 06-19224-01

Dear Sir or Madam:

On January 3, 1985, I received a letter from your office informing me of the impending expiration of the above captioned permit on January 31, 1985. The letter also specified that an application for license renewal must be filed at least thirty days prior to expiration in order to insure continuous coverage. This being impossible in view of our receipt date, I contacted Mr. Patterson of your office earlier this morning concerning our situation. Mr. Patterson assured me that, under the circumstances, the renewal could still be processed prior to the expiration date of our current license. I appreciate your consideration in this matter.

I have reviewed our current license and determined that the information contained therein is up-to-date and accurate. I have also reviewed the appropriate NRC regulations in order to discern any germane changes and have found none.

United Illuminating therefore wishes to continue to operate under our current license in complete accordance with NRC regulations and license conditions. I have enclosed a check for \$120.00 to cover the renewal fee.

Questions concerning this renewal application may be directed to me at the address indicated on our license or by telephone at (203) 777-6093.

Thank you again for your consideration.

Very truly yours,

Robert J. Kloepper
