Nuclear Regulatory Commission MS 3D-23  
Washington, D.C. 20555

Dear Ms. Lopez-Otin:

I am currently undertaking research on effects on agency mission of compliance with 36 CFR 800. The initial phase of this study focuses on experiences of agencies in the states of Arizona and New Mexico. The research design includes mailing a short questionnaire to offices delegated the authority to act on behalf of the head of the agency for purposes of 36 CFR 800, i.e., offices with Agency Official(s).

To ensure that our census of federal agencies is complete, we are requesting from the respective Federal Preservation Officers the addresses of either: 1) the responsible office(s) or 2) the field office(s) which can identify subordinate Agency Officials in Arizona and New Mexico. We should be pleased to receive other information on the administrative measures taken by NRC to comply with 36 CFR 800. This research is undertaken from the perspective of public administration; even arcane administrative details are of interest. A self-addressed envelope is enclosed for your use.

If there are any questions, or if other than USPS communication is more effective, call (602) 966-2080, FAX "Perry/Morrison" (602) 965-9248, or e-mail <fiatv8@imap2.asu>. Thank you for your help.

Sincerely,

  
Charles Randall Morrison
