EDWIN I. HATCH NUCLEAR PLANT
UPDATED INFORMATION FOR LICENSE AMENDMENTS APPLICATION
SOUTHERN NUCLEAR TO BECOME THE LICENSED OPERATOR
NRC TAC Nos. M84534 and M84535

Gentlemen:

On September 18, 1992, Georgia Power Company (GPC) submitted an application to amend Facility Operating License (FOL) Nos. DPR-57 and NPF-5 which would authorize Southern Nuclear Operating Company, Inc. (Southern Nuclear) to become the licensed operator and have exclusive responsibility and control over the physical construction, operation, and maintenance of Edwin I. Hatch Nuclear Plant, Unit 1 and Unit 2 (Plant Hatch). By letters to the NRC dated October 6, 1992 and October 15, 1992, and September 11, 1996, GPC supplemented this application.

Similar to the October 15, 1992 letter, GPC is proposing wording revisions to the proposed changes to the Facility Operating Licenses Nos. DPR-57 and NPF-5. These wording revisions, which are provided in the attachment, merely refer to the latest revision dates of the Physical Security and Contingency Plan and the Guard Training and Qualification Plan. Additionally, the revised pages recognize that on April 12, 1993, GPC submitted the March 1993 Revision to the Guard Training and Qualification Plan which removed the safeguards category from the entire document.

It has also come to the attention of GPC that the name "Southern Nuclear Operating Company" was used in the marked-up version of the license. The complete and correct

name of the corporation is "Southern Nuclear Operating Company, Inc." The use of "Southern Nuclear," after being properly defined, as an abbreviated form of the corporation name continues to be appropriate. Please make any necessary revisions to this affect.

In accordance with 10 CFR 50.91, the designated State official will be sent a copy of this letter and its attachment.

Sincerely,

J. T. Beckham, Jr.

JTB/JMG
