SEP 28 1985

Docket Nos. 50-445  
and 50-446

Mr. W. G. Council  
Executive Vice President  
Texas Utilities Generating Company  
400 North Olive Street, L. B. 81  
Dallas, Texas 75201

Dear Mr. Council:

SUBJECT: USE OF ASME CODE CASES N-397 AND N-411 FOR THE  
COMANCHE PEAK STEAM ELECTRIC STATION (UNITS 1 and 2)

This letter is a clarification of our June 5, 1985 letter concerning the use of ASME Code Cases N-397 and N-411 for Comanche Peak. Confirming our telephone call of September 4, 1985, the intent of the letter was to give generic approval of the application of the ASME Codes Cases N-397 and N-411 provided that items (a) through (f) that we listed in the letter were implemented. We also requested that TUGCO review and respond as to whether (and in what manner) this action would affect the prior hearings, the items (a) through (e) that we listed in the letter, and whether a Construction Permit amendment is necessary.

Specific approval for the use of these Code Cases for Comanche Peak will be given when we receive acceptable responses to these items.

Sincerely,

Vincent S. Noonan, Director  
Comanche Peak Project
