Subject: Revision to Decommissioning Plan

References: Docket 70-1113, NRC License SNM-1097

Dear Mr. Weber:

Pursuant to activities authorized by NRC materials license SNM-1097, GE's Nuclear Energy Production facility (NEP) in Wilmington, N. C. hereby submits a revision to our Decommissioning Plan.

The major changes in this plan are the addition of information relating to our new Dry Conversion Process (DCP) and an update to the financial data to include activities for decommissioning the DCP.

The Decommissioning Plan is being submitted in its entirety. All pages are dated 12/18/96, and are identified as Revision 1. Changes made in this revision are identified with a vertical bar ( | ) in the right hand margin.

Six copies of this submittal are being provided for your use.

Please contact Rick Foleck on (910) 675-6299, or me on (910) 675-5889 if you have questions regarding this submittal.

Sincerely,

GE NUCLEAR ENERGY
