

JUL 12 1985

Docket Nos. 50-317
50-318

Baltimore Gas and Electric Company
ATTN: Mr. A. E. Lundvall, Jr.
Vice President, Supply
P.O. Box 1475
Baltimore, Maryland 21203

Gentlemen:

Subject: Inspection Nos. 50-317/85-17 and 50-318/85-15

A special in-office radiological safety inspection was conducted by Mr. P. Clemons of this office on July 1-3, 1985, of activities authorized by License Nos. DPR-53 and DPR-69. The results of the inspection were discussed between Dr. Ronald R. Bellamy of my staff and Mr. Robert Denton of your staff on July 12, 1985.

The inspection covered the review of licensee's records and NRC documents relevant to the allegations which were brought to the attention of the NRC on September 19, 1984 by one of your employees. The employee alleged that his exposure records were incomplete and inaccurate. These concerns were previously examined in a Combined NRC Inspection Report No. 50-317/84-25 and 50-318/84-25. Based upon further discussions with this employee and his attorney, and our independent re-evaluation of this matter, we now conclude that certain of the allegations are true. There are also certain allegations which we are requesting you to investigate and report to us, as indicated in the enclosed report.

As a result, two of your activities discussed in Inspection Report 50-317/84-25 and 50-318/84-25, have now been determined to be in apparent violation of NRC requirements. Details of these findings are provided in the enclosures. You are required to respond to these findings by following the instructions included in Appendix A.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:

Ronald R. Bellamy for
Thomas T. Martin, Director
