Dear Mr. Themelis:

In order to facilitate our reviews of Remedial Action Inspection Plans (RAIPs) as part of our concurrence in performance of remedial actions, we have developed a staff technical position (STP) on testing and inspection. The STP describes the engineering practices, testing, inspection, record keeping and corrective action activities considered satisfactory for the performance of the geotechnical activities of remedial action construction.

Enclosed is a draft of this STP for your review and comment. Should you have any questions in this matter, please contact Dan Gillen of my staff at (FTS) 427-4160.

Sincerely,

Original signed by
