Re: License #SUA-1401
Docket #40-8783
Requested Data

Dear Mr. Hawkins:

Enclosed are 5 copies of the data requested by Mr. Brich in our last telephone conversation (June 12, 1985). This data is a tabulation of the data to date on a monthly basis per well. One note has been attached to the data on well number 5S for May. It has been indicated that some sampling error occurred and may have influenced the results. This is being investigated further.

Graphs are being prepared for the June 1985 Second Quarter Report to graphically depict the data as requested in Amendment #5 - Stipulation 15, plus calcium, iron and manganese.

This should update and address the key points of that July 12th conversation. Should you or your staff have any questions, contact us at any time.
