Re: Your Letter Dated May 23, 1985, Requesting Termination of License
Number 34-09846-01

Gentlemen:

According to our registry files the U.S. Radium Model Lab-508-1 is a specifically licensed foil source. Our review of the University of Akron License Number 34-03279-03 revealed that this licensee is not specifically licensed to possess the above mentioned source. In order to terminate your License Number 34-09846-01, it will be necessary for the University of Akron, License Number 34-03279-03 to apply for an amendment to possess the hydrogen-3 tritiated foil source (U.S. Radium Model Lab-508-1) which you transferred to them.

If you have any questions or require clarification on any of the information stated above, you may contact us at (312) 790-5625.

We will continue our review of your application upon receipt of this information. Please reply in duplicate, within 30 days, and refer to Control Number 79076.

Sincerely,
