Surveillance 4.8.2.1.2.e

Dear Sir:

On November 26, 1996, a proposed license amendment to Appendix A (Technical Specification of Facility Operating License NPF-9 and NPF-17 for McGuire Nuclear Station Units 1 and 2) was submitted for approval. To supplement the proposed 11/26/96 TS amendment request, a proposed change to surveillance 4.8.2.1.2.e is attached. The attached supplement will achieve alignment with the Improved Standardized Technical Specification, i.e. ISTS SR 3.8.4.8.

The proposed TS amendment supplement has been reviewed and approved by the McGuire Plant Operation Review Committee. No changes to the UFSAR will result from this supplement to the proposed amendment change.
