Docket No. 50-289

MEMORANDUM FOR: Richard W. Starostecki, Director  
Division of Reactor Projects, Region I

FROM: Hugh L. Thompson, Jr., Director  
Division of Licensing

SUBJECT: TMI-1 PROPOSED CHANGE TO SITE ORGANIZATION

Your assistance is requested in conducting a review of the enclosed submittal from GPU Nuclear Corporation dated May 28, 1985. The product expected as a result of your review is a completed safety evaluation. Your reviewers should use the Standard Review Plan (SRP) and Standard Technical Specifications (STS) as guidance in determining acceptance criteria, recognizing, of course, that, for operating reactors, the criteria in these documents are not requirements.

In accordance with NRR Office Letter No. 44, each safety evaluation performed by a technical division shall have a separate SALP input provided. For purposes of these reviews, the regional personnel involved are considered part of the technical divisions. Therefore we are requesting that your forwarding memorandum contain a SALP input for each safety evaluation performed.

Work for this review effort should be charged under TAC 57952. The requested completion date is July 31, 1985. Please notify me as soon as possible if this completion date is acceptable. Any contact with the licensee on this review effort or any additional information deemed necessary should be obtained through the NRR project manager. The project manager for this plant is John Thoma and he can be reached at 492-8213 (FTS).

Office of Nuclear Reactor Regulation  
Attn: John F. Stolz, Chief  
Operating Reactors Branch No. 4  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Stolz:

Three Mile Island Nuclear Station, Unit I, (TMI-1)  
Operating License No. DPR-50  
Docket No. 50-289  
Technical Specification Change Request No. 144

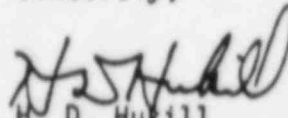

Enclosed are three originals and forty conformed copies of Technical Specification Change Request No. 144.

Also enclosed is one signed copy of the Certificate of Service for this request to the chief executives of the township and county in which the facility is located, as well as the Bureau of Radiation Protection.

Pursuant to 10 CFR 50.91(a)(1), we enclose our analyses, using the standards in 10 CFR 50.92 of significant hazards considerations. As stated above, pursuant to 10 CFR 50.91(a) of the regulations, we have provided a copy of this letter, the proposed change in Technical Specifications, and our analyses of significant hazards considerations to Thomas Gerusky, the designated representative of the Commonwealth of Pennsylvania.

Pursuant to the provisions of 10 CFR 170.21, enclosed is a check for \$150.00 as payment of the fee associated with Technical Specification Change Request No. 144.

Sincerely,

  
H. D. Hukill  
Director, TMI-1

DOCKET NO. 50-289  
LICENSE NO. DPR-50

GPU NUCLEAR CORPORATION

This is to certify that a copy of Technical Specification Change Request No. 144 to Appendix A of the Operating License for Three Mile Island Nuclear Station Unit 1, has, on the date given below, been filed with executives of Londonderry Township, Dauphin County, Pennsylvania; Dauphin County, Pennsylvania; and the Pennsylvania Department of Environmental Resources, Bureau of Radiation Protection, by deposit in the United States mail, addressed as follows:

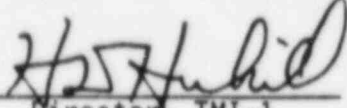

Mr. Jay H. Kopp, Chairman  
Board of Supervisors of  
Londonderry Township  
R. D. #1, Geyers Church Road  
Middletown, PA 17057

Mr. John E. Minnich, Chairman  
Board of County Commissioners  
of Dauphin County  
Dauphin County Courthouse  
Harrisburg, PA 17120

Mr. Thomas Gerusky, Director  
PA. Dept. of Environmental Resources  
Bureau of Radiation Protection  
P.O. Box 2063  
Harrisburg, PA 17120

COMMISSION EXPIRES JUNE 17, 1985  
Member, Pennsylvania Association of Notaries

I. Technical Specification Change Request No. 144

The Licensee requests that the revised Figure 6-2 replace the existing Figure 6-2 in the TMI-1 Technical Specifications.

II. Reason for Change

This TSCR is requested due to a change in the Plant Engineering Department to improve the organizational structure. The change shows the addition of "Manager(s), Plant Engineering" positions reporting to the Plant Engineering Director. Current plans are for two such positions, with several of the Lead Engineers reporting to one of the two Managers.

The "Chemistry Supervisor" block title has been changed to "Staff Chemist" to reflect the current title for this position. The Lead Nuclear Engineer and the Staff Chemist continue to report directly to the Plant Engineering Director.

III. Safety Evaluation Justifying Change

The changes are administrative changes to assure better management of the engineering workload. The Plant Engineering Organization maintains the same number of disciplines, experience, and educational requirements.

This change therefore, does not reduce the margin of safety provided by the Technical Specifications.

IV. No Significant Hazards Consideration

These proposed changes are similar to Example ii of the "Amendments Not Likely to Involve Significant Hazards Considerations" from Federal Register Vol. 48, No. 67 at 14870 on April 6, 1983.

The proposed Amendment, which is similar to the suggested format in the Standard Technical Specifications, does not affect plant design or operation, and does not involve modifications to plant equipment or changes that would affect plant safety analyses. The organization change assures that an adequate number of disciplines with sufficient education and experience are available to provide the on-site engineering support necessary to TMI-1 operations.

This TSCR constitutes additional management control through an improved organizational structure of the Plant Engineering Department. Therefore, the proposed amendment involves no significant hazards considerations in that it does not:

- 1) Involve a significant increase in the probability or consequences of an accident previously evaluated.
- 2) Create the possibility of a new or different kind of accident from any accident previously evaluated.
- 3) Involve a significant reduction in a margin of safety.

V. Implementation

It is requested that the Amendment authorizing this change become effective upon issuance.
