Dear Mr. Brack:

During the October 10, 1996, public meeting in Wiscasset, Maine to discuss the findings of the Maine Yankee Independent Safety Assessment Team, you questioned apparent discrepancies between Maine Yankee's Emergency Plan and Federal guidelines and I promised you a response. Since that meeting, Dr. Robert Bores of NRC's Region I has been in contact with you and discussed these issues at length. It is my understanding that your questions have been answered and your concerns have been resolved to your satisfaction. It is also my understanding that no further communications on these matters is warranted or expected. I appreciate your patience and cooperation. Once again, thank you for your participation in our public forum process.

Sincerely,
