Regulation and Control  
Kerr-McGee Building  
Oklahoma City, Oklahoma 73102

Gentlemen:

In accord with discussions held in our offices on November 20, 1972, enclosed is a modified version of comments and questions provided to you informally at our meeting. Enclosed also are copies of the comments made by three consultants after review of your Revised Environmental Report of November, 1971 and your Supplemental Environmental Report of June, 1972.

As you will note, our comment No. 25 has been modified in its entirety from the initial rough draft, and now covers a point of major significance which was noted in our discussion.

In order that we may proceed on schedule with our preparation of a Draft Environmental Statement for your Sequoyah Facility, we request that you respond to these comments and questions as soon as possible. Two hundred copies of your response would be received at this office no later than January 2, 1973. If there are any questions regarding the explanations or additional information requested, we shall be pleased to discuss these matters with you, and to provide whatever assistance we can to expedite your response.

Sincerely,

ORIGINAL SIGNED BY  
J. E. ROTHFLEISCH
