Enclosure 1 provides a copy of the first draft of the combined Catawba Units 1 and 2 Technical Specifications. This first draft is based on your March 15, 1985, submittal in the form of a marked-up copy of the Catawba Unit 1 Technical Specifications. Enclosure 2 provides a tabular summary of our assessment of each mark-up, and Enclosure 3 provides an annotated list of technical specification items noted in the Safety Evaluation Report (NUREG-0954) and its Supplements 1, 2, 3, and 4. This first draft technical specifications and the two enclosures will be the basis for a site visit, planned for the week of July 22, 1985, to discuss areas where additional information may be required to ensure that the final technical specifications accurately reflect the as built facility and the FSAR as accepted in the SER.
