Mr. B. J. Youngblood, Chief
Licensing Branch No. 1
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington D.C. 20555

Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441
Acceptance of LRG II
Proposed Solution for
Generic Issue, 9-RSB;
Long-Term Operability of
Deep Draft Pumps

Dear Mr. Youngblood:

This letter is provided in response to your letter dated July 16, 1985 in which you requested a confirmation from each LRG II member to implement the LRG II proposed solution for Generic Issue 9-RSB, on Long-Term Operability of Deep Draft Pumps. The LRG II proposed solution was found to be acceptable by the staff as described in your letter.

The Cleveland Electric Illuminating Company, as a member of LRG II, hereby endorses the LRG II proposed solution for Generic Issue 9-RSB that was submitted to the LRG II Project Manager, John J. Stefano, by Dale L. Holtzscher (Chairman, LRG II) in a letter dated September 19, 1983, along with the responses provided in your letter.

We feel that this response should allow for the resolution of this generic issue to be reflected in our next supplement to the SER.

Very truly yours,

Murray R. Edelman
Vice President
Nuclear Group
