Mr. Nunzio J. Palladino, Chairman
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

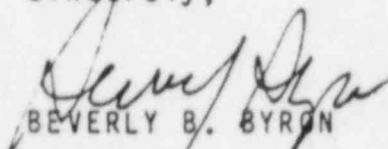

Dear Mr. Palladino,

It has been brought to my attention that the Nuclear Regulatory Commission (NRC) is exploring various options of consolidating nine of its offices into one building. As a member of the House Subcommittee on Energy and Environment, I was curious to learn if you have considered locating the offices of the NRC in a government owned building in Germantown, Maryland? Currently, this building houses the 1,000 employees of the Department of Energy (DOE), and has a the capacity to house 2,600 people.

I look forward to hearing from you about relocation into the Germantown location. Thank you for your anticipated cooperation and time.

With best regards,

Sincerely,

BEVERLY B. BYRON
