Gentlemen:

SUBJECT: BROWNS FERRY NUCLEAR PLANT RADIOLOGICAL EMERGENCY PLAN REVIEW, DOCKET
NOS. 50-259, 50-260 AND 50-296

We have completed our review of Revision 24 of the Browns Ferry Radiological
Emergency Plan dated March 26, 1985.

Our review indicated that your Browns Ferry Radiological Emergency Plan
continues to meet the planning standards of 10 CFR 50.47(b) and the requirements
of Appendix E to 10 CFR 50.

Please be reminded that 10 CFR 50.54(q) requires NRC approval of any changes to
your plan which decrease its effectiveness. However, if your safety review
indicates no decrease in emergency preparedness, then changes can be made
without NRC approval. In all cases, you should furnish copies of each change
to the NRC in accordance with 10 CFR 50.54(q). Also any changes to the
Emergency Plan Implementing Procedures should be made in accordance with the
requirements of 10 CFR 50, Appendix E, Section V (Implementing Procedures).

Should you have any questions regarding this letter, please contact
Thomas R. Decker of our staff at 404/221-2604.

Sincerely,

David M. Verrelli, Chief
