Subject: Revised Date for Issuance of Approved Version of WCAP-12945(P)

Attention: Frank R. Orr

Reference: Letter, R. C. Jones (USNRC) to N. J. Liparulo (W), "Acceptance for Referencing of the Topical Report WCAP-12945(P), Westinghouse Code Qualification Document for Best Estimate Loss of Coolant Analysis", June 28, 1996.

Dear Mr. Orr:

The reference included a request that Westinghouse restructure WCAP-12945 to incorporate resolution of Requests for Additional Information, and to address documentation concerns identified by the staff and ACRS. The updated version was to be submitted to the NRC within 6 months of issuance of the reference. Westinghouse has made significant progress in developing the updated version. However, we find it necessary to request an extension for submitting the revised report, in order to satisfy the documentation commitments we have made to the staff. We are targeting a revised completion date of February 28, 1997.
