Docket No. 40-8681

Umetco Minerals Corporation

P.O. Box 787

Gentlemen:

By letter dated April 24, 1985, the Nuclear Regulatory Commission amended Source Material License No. SUA-1358 to impose the detection monitoring requirements described in 40 CFR 192.32(a)(2).

By letter dated May 10, 1985, you requested a hearing on the amendment to your license asserting among other things that the issuance of the amendment did not comply with the Commission's procedural requirements. To avoid any question of the validity of the amendment on procedural grounds, we are withdrawing the amendment and will reissue the license condition shortly in a manner which clearly removes any question of NRC adherence to appropriate procedural requirements.

Therefore, License Condition No. 33 to Source Material License No. SUA-1358, described in NRC letter dated April 24, 1985, is hereby withdrawn.

Sincerely,

RS
