 Docket No. 40-8698

Plateau Resources Limited  
 ATTN: Fred Gerdeman, Regulatory Affairs  
 772 Horizon Drive  
 Grand Junction, CO 81506-3989

Gentlemen:

By letter dated April 30, 1985, the Nuclear Regulatory Commission amended Source Material License No. SUA-1371 to impose the detection monitoring requirements described in 40 CFR 192.32(a)(2).

By letter dated May 10, 1985, you requested a hearing on the amendment to your license asserting among other things that the issuance of the amendment did not comply with the Commission's procedural requirements. To avoid any question of the validity of the amendment on procedural grounds, we are withdrawing the amendment and will reissue the license condition shortly in a manner which clearly removes any question of NRC adherence to appropriate procedural requirements.

Therefore, License Condition No. 50 to Source Material License No. SUA-1371, described in NRC letter dated April 30, 1985, is hereby withdrawn.

Sincerely,

R. Dale Smith, Director  
 Uranium Recovery Field Office  
 Region IV
