MEMORANDUM FOR: William J. Dircks
Executive Director for Operations

FROM: Victor Stello, Jr., Chairman
Committee to Review Generic Requirements

SUBJECT: MINUTES OF CRGR MEETING NUMBER 76

The Committee to Review Generic Requirements (CRGR) met on Wednesday, May 29, 1985 from 1-5 p.m. A list of attendees for this meeting is enclosed (Enclosure 1).

1. G. Arlotto and A. Hintze (RES) presented for CRGR review a proposed Regulatory Guide (IC 609-5) entitled "Criteria for Power, Instrumentation and Control Portions of Safety Systems." This proposed Guide has received public comment and RES intends its issuance as an endorsement (with exceptions) of IEEE Std. 603-1980. This IEEE Std is a broad scope standard integrating a number of existing IEEE standards and would supersede IEEE Std. 279 (1968 and 1971). Enclosure 2 summarizes this matter (Category 2 Item).
2. J. Richardson, G. Arndt and J. Glynn (RES) completed the CRGR briefing on the proposed Revision of Appendix J (Primary Reactor Containment Leakage Testing for Water-Cooled Power Reactors) of 10 CFR Part 50 and the related Regulatory Guide (Task No. MS 021-5) entitled "Containment System Leakage Testing" which is intended to endorse with exceptions the ANSI/ANS 56-8-1981 standard for leakage testing. Enclosure 3 summarizes this matter (Category 2 Item).

Enclosures 2 and 3 of this document contain predecisional information and therefore will not be released to the Public Document Room until the NRC has considered (in a public forum) or decided the matters addressed by the information.

Questions concerning these meeting minutes should be referred to Walt Schwink (492-8639).
